Monthly Crime Prevention

Stolen and Burglarized Vehicles...

For this month's topic we want to focus again on stolen/burglarized vehicles. We are still experiencing some frosty mornings so please do not leave your vehicle warming up, running, and unattended. Please also take a look at this link to a video on a CNN report about thieves using a box to obtain access into newer model locked vehicles <https://www.youtube.com/embed/I7OadDz3Ums>. Criminals come up with all kinds of ingenious ways to commit their crimes. When we take a look at most vehicle burglaries and stolen vehicle reports, a common denominator in these vehicle crimes are that victims have left valuable property in their vehicles.

As a reminder, please take a few extra minutes to take all items of value out of your vehicles before turning in for the evening. Most stolen and burglarized vehicles occur during the late night to early morning hours while victims are sleeping. If you remove any items that criminals may find enticing out of your vehicles, your risk of becoming a victim of this crime decreases greatly.

The Citrus Heights Police Department has started a new program to help prevent or decrease auto theft and burglary. The Battle Auto Theft (BAT) Program is now live and open for citizens to enroll. Click [HERE](#) to be linked to the media release, program brochure and the application to participate. If you wish to participate, please fill out the application, and bring it along with the additional documents needed and your vehicle that you are signing up to the Citrus Heights Police Department during business hours so our Records Staff can enroll you. In addition to registering your vehicle with the BAT Program, a member of our Records Staff will affix a serialized sticker to your registered vehicle. The Citrus Heights Police Department front counter is open Monday-Friday 8am-5pm and Saturday 9am-2pm. Applications can also be picked up at the front counter. Thank you for passing this along to your groups and have a happy and safe February 2014!

CHPD wins CPOA Award

The Award of Distinction is presented for an outstanding act or accomplishment by a law enforcement individual or unit for an ongoing operational activity that performs a great service to the community. **Citrus Heights' Police Department Communications Center** proved to be just that by winning this year's CPOA (California Police Officers Association) Award. They were recognized for their implementation of a unique "Community Oriented Policing" (COPS) model that includes community outreach, programs and responsibilities that assist both the officers and the public.

Community/Economic Development Department

Auburn Blvd. Complete Streets Revitalization Project

Segment II – The precast benches at the corners of Antelope Road and Auburn Boulevard are in place and the lettering “City of Citrus Heights” and “Lincoln 40” has been installed. By February, all items concerning the project are expected to be complete. Final acceptance of the project will be brought to City Council in March.

Segment III – The sidewalks, curb and gutter and driveways from Sylvan Trailer (7200 Auburn) to Reichert’s funeral home (7320 Auburn) have been formed and poured. Demolition on the next stage, Willow to Kanai (east-side) has begun. Storm water work is almost 100% complete. The new anticipated finish date is in late June.

If you have any questions about the project please contact the ABC Team at ABCteam@citrusheights.net or visit the project webpage at www.ABCupdate.net.

Creek Corridor Trail Project Update

Creek Corridor Trail Project – the final Community Workshop for the Creek Corridor Trail Project was held on January 14th. The meeting was well attended, estimated at about 175 people. The purpose of the workshop was to receive feedback on the Draft Feasibility report that has been prepared. Many of the attendees were residents who lived directly next to the creeks and are concerned about a trail in close proximity to their back yards. The final feasibility report will be presented to the Planning Commission and City Council in early 2014. Detailed project information is available at the project website, www.chcreektrails.net.

Animal Services

PETSMART Charities & Citrus Heights Animal Services partner to offer free sterilizations for Feral Felines and owned Cats

Thanks to a grant from PetSmart Charities®, the City of Citrus Heights Animal Services (CHAS) has been able to initiate a pilot program, partnering with Sacramento Area Animal Coalition (SAAC) and River City Cat Rescue, (RCCR), two local non-profit agencies, to provide vouchers for free spay or neuter for feral cats for humane feral population management. All feral felines will have the tip of their ear removed while under general anesthesia and receive a rabies vaccination during their spay/neuter surgery to indicate they have been sterilized.

Additionally, CHAS will offer free spay/neuter vouchers to cat owners in the 95610 and 95621 zip codes to prevent the birth of unwanted kittens, reducing their numbers at shelters and their likely euthanasia.

The pilot program offers three options for sterilizing cats:

1. Sacramento Area Animal Coalition (apply online at www.sacanimal.org)
 - Feral cat voucher
 - Owned cat voucher
2. River City Cat Rescue (email info@rivercitycatrescue.org to request a feral or owned cat voucher.)
3. CHAS – To receive more information about sterilizing stray & feral cat colonies in your Citrus Heights neighborhood, contact CHAS at 916-725-7387. Our Animal Services Officers will be happy to assist you in ascertaining the nature of the population and whether the cats are eligible under the program.

The City of Citrus Heights relies on grant funding and donations to offer free and/or low-cost sterilization & vaccination services for pet owners in the community. For more information or to find out how you can help, please call 916-725-7387.

Be Informed. Get Involved. Make a Difference.

CHAS says CHIP IT! Chip it GOOD!!

Cats lose their collars and tags more frequently than dogs because break-away style collars are designed for a cat's safety, allowing them to escape entanglement. Without ID, cats that go to shelter are often never claimed. Adoption is the best case scenario, but often unclaimed & un-adopted cats end up euthanized. Change your cat's fate. Chip it! Chip it GOOD!!

NUISANCE WILDLIFE

While we should strive to live in harmony with wildlife living in our creek areas and greenbelts, wild animals will still occasionally try to lay claim to areas of your property. One of these times is during breeding season, which is late January-March for skunks & coyotes. The guidelines below may help you prevent wildlife from inhabiting your property.

- Eliminate hiding spots** – Keep shrubbery trimmed at least 8 inches above the ground, remove junk and wood piles from your yard, etc.
- Close access points** – Open or loose foundation & attic vents, open sheds & outdoor closets, and raised decks without screening/lattice to prevent entry, all offer wildlife places to den their young. Removing a skunk family is always more challenging than preventing them from taking up residence in the first place!
- Avoid feeding pets outdoors** – If you feed your pets outdoors, remove leftovers when pets have finished and remove feeding dishes no later than dusk. Even bird feeders & the leftover ground scatter can become a source of food for other wildlife. Use squirrel proof feeders or attach to slick metal poles that prevent climbing. Clean up excess bird seed from the ground.
- Remove water sources** – Tighten or repair leaking hose bibs & yard irrigation. Do not allow standing pools of water to accumulate, especially during drought conditions.
- Secure poultry coops** with sturdy mesh or chicken wire & spring latches. Raccoons, opossums, skunks and coyotes are fond of eggs. Coyotes & raccoons have also been known to opportunistically kill & eat sleeping fowl.
- Clear** fallen fruit and secure compost/garbage bin lids with a latch or heavy weights to avoid giving wildlife a free meal.
- Deter animals** from entering your yard by using motion-sensing lighting or sprinklers to startle them.

TRAPPING

If you have nuisance wildlife that you feel need to be trapped and removed from your property, contact the Sacramento County Department of Agriculture Wildlife Services at (916) 875-6603 between the hours of 7:30am - 8:30am. During this hour, an appointment can be made for the trapper to come out to your home. There is a small fee to set the animal trap and it includes removal of the animal once trapped. Additional fees are incurred per animal should there be a family of animals that need trapping and removal.

If you use your own traps, avoid placing them in the full sun (use a tarp or towel to cover them), place traps away from residences, especially if you are trapping for skunks, and be sure to trap only when you can monitor the trap. It is not humane to leave any animal without food & water for more than 24 hours. Trapped wildlife should be removed or humanely euthanized by a professional.

Additional resources for nuisance wildlife removal may be found on the internet or in the yellow pages under Pest Control/Management, (not affiliated with the City).

The California Department of Fish & Wildlife also offers additional tips on how to deal with wildlife at <http://www.dfg.ca.gov/LivingWithWildlife/>.
