Arcade-Cripple Creek Trail Mariposa Extension

Community Workshop

August 18, 2026

Trail Network

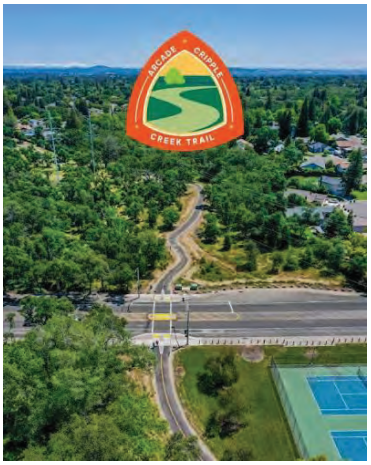

Regional Context

The Existing Arcade-Cripple Creek Trail

The Existing Arcade-Cripple Creek Trail (ACCT)

- Opened to the public in **May 2024** with a community ribbon-cutting celebration.
- Features approximately 3.4 miles of Class I multi-use trail extending from Sunrise Boulevard (Arcade Creek Park Preserve) to Wachtel Way near the Roseville city limit.
- Designed for **walking, bicycling, running, and other active transportation** while providing an ADA-accessible recreational corridor.
- Connects neighborhoods with parks, schools, open space, and community destinations while following the natural Arcade Creek corridor.
- Represents the first major segment of Citrus Heights' long-term vision for a connected citywide trail network.

Building on the Success of the Trail

Why Continue Expanding the Trail?

- The ACCT is envisioned as part of a **larger citywide and regional trail network** that will connect neighborhoods, parks, schools, shopping areas, and community destinations.
- The Mariposa Extension is the next planned phase between Sayonara Drive and Mariposa Avenue.
- The extension will help:
  - Close an important gap in the existing trail.
  - Improve pedestrian and bicycle connectivity.
  - Increase safety by providing an off-street travel option.
  - Expand access to parks, neighborhoods, and community amenities.
- The project is **fully funded** for planning, design, and construction.

Project Timeline and Funding

July 2024 | City Receives State Grant Funds
City is authorized $7,155,000 in grant funding to construct a 0.5-mile extension of the Arcade-Cripple Creek Trail between Sayonara Drive and Mariposa Avenue.

July 2025 | Begin Preliminary Engineering & Environmental Documentation
City hired an Engineering Consultant to support the City with delivering the public outreach, preliminary engineering and environmental approval for the project.

2027-2028 | Final Design & Right-of-Way
Develop the project engineering through final design and construction documents. Coordinate with property owners and utility owners.

2029 | Construction
Estimated time frame for construction will be confirmed through the preliminary engineering and final design phases.

Project Phase	State Grant Funds
Preliminary Engineering & Environmental	$500,000
Final Design & Right-of-Way	$806,000
Construction	$5,849,000
Total	**$7,155,000**

About the Project

The Arcade-Cripple Creek Trail (ACCT) - Mariposa Extension Project is the next phase in the City's plan for a citywide trail network.

This project will extend the existing 3.4-mile Arcade-Cripple Creek Trail by 0.5 miles along Arcade Creek between Sayonara Drive and Mariposa Avenue.

Trail Design Considerations

- Connectivity
- Right-of-Way
- Environmental
- Constructability
- Maintenance
- Cost

Creek Crossing Elements

Alternative 1
Bridge

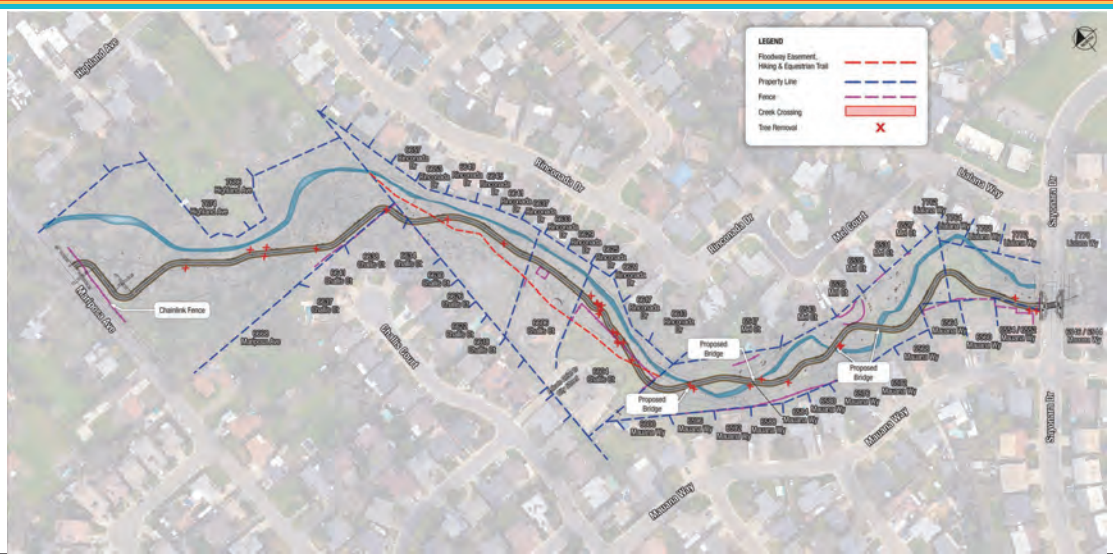

Alternative 2
Retaining Structure

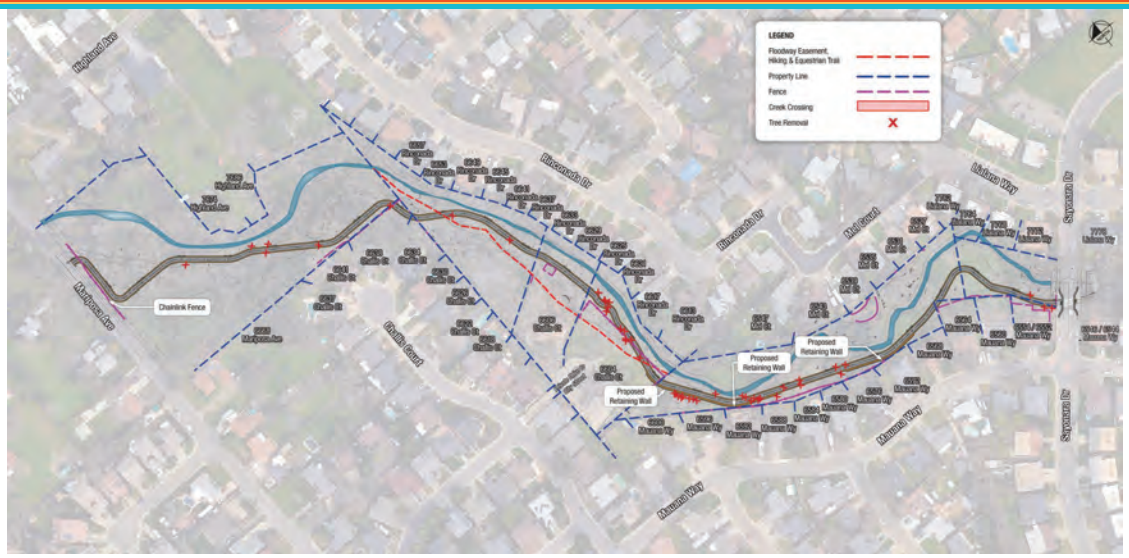

Alternative 3
Low Water Crossing

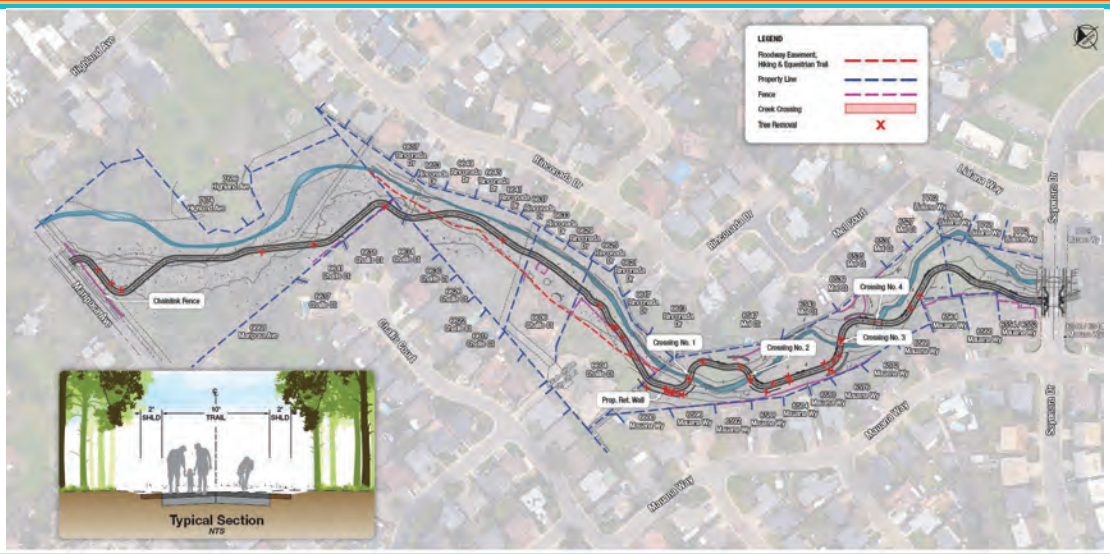

Proposed Alternative 1

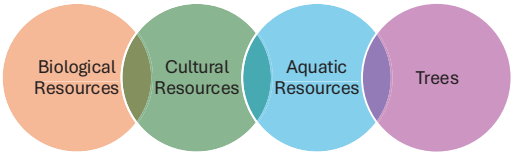

Proposed Alternative 2

Proposed Alternative 3: Low Water Crossing

Environmental Considerations

Next Steps

- Collect your feedback
- Continue development of the preliminary design
- Evaluate the preferred, most feasible trail alignment
- CEQA approval
- Final Design & Right-of-Way
- Construction
